

Short Biography

Maria Luisa Balestrieri is a Full Professor in Biochemistry at the Department of Precision Medicine, School of Medicine, University of Campania *L. Vanvitelli*, Naples, Italy where she has been a faculty member since 2004. She completed her Ph.D. in Biochemistry in 1997 at the University of Naples "Federico II", Italy. She was Research Assistant in Biochemistry at the Basic and Applied Research Unit, Oak Ridge Associated Universities, Oak Ridge, Tennessee (USA) in 1998. Since 2008 she is Member of the Academic Board of the Ph.D. Program in Biochemical and Biotechnological Sciences, University of Campania Luigi Vanvitelli. Her major research interests lie in the area of molecular mechanism of cellular redox homeostasis in the control of human chronic degenerative diseases, with particular regard to cancer and type 2 diabetes, and in the biochemistry of bioactive naturally occurring food metabolites with antioxidant and anticancer properties. She is Member of the Italian Society of Biochemistry and Molecular Biology.
